

CARVERS LAMENT

In the Winter of '69
A group of carvers so fine

Said unto themselves,
"Why, each year do we put this back on our shelves"

And out of this society was born
So never again would this art form be torn

from this community- And it would be spared
Because of this group of carvers that cared

Now in the Spring of '79
This group of carvers that started with nine

Who have grown to include at least 49
Are having a show on the two days prior to April 29

And they would feel so fine
If you would say again, "Please, Display Mine"

And maybe even sit and reminisce from 8am till 9
About the chips that have fallen since '69

Fellow Carvers;

I have been asked to get a display together for a
Special table to commemorate our 10th anniversary. I thought
of having a carving from each carver that they displayed at
their first show with our club. These will be personally
taken care of and returned after the show.
